## Job Application for Front End Engineer

### About Me

---

I am extremely passionate about programming, web development and Linux. I have worked with many full stack technologies, mostly using Typescript and Python. I am a great problem solver and can work with agile environments.

### Why Me?

---

I am a great Front End developer, with 3+ years of experience with React and strong knowledge of CSS. I can't create designs by myself, but I have no problem implementing responsive Figma designs made by designers.

Sincerely,

**Dyego A. Costa**
