WASHINGTON, DC 20005

Job Application for Front End Engineer

About Me

I'm extremely passionate about programming, web development and Linux. I've worked with many full stack technologies, mostly using Typescript and Python. I'm a great problem solver and can work with agile environments.

Why Me?

I'm a great Front End developer, with 3+ years of experience with React and strong knowledge of CSS. I can't create designs by myself, but I have no problem implementing responsive Figma designs made by designers.

Sincerely,

Dyego A. Costa
