Job Application for Front End Engineer

About Me_

I'm extremely passionate about programming, web development and Linux. I've worked with many full stack technologies, mostly using Typescript and Python. I'm a great problem solver and can work with agile environments.

Why Me? _

I'm a great Front End developer, with 3+ years of experience with React and strong knowledge of CSS. I can't create designs by myself, but I have no problem implementing responsive Figma designs made by designers.

Sincerely,

Dyego A. Costa
