Dyego A. **Costa**

FULL STACK WEB DEVELOPER · SOFTWARE ENGINEER

Ceará, Brazil - UTC-3

📱 (+55) 85-99713-0901 | ✉ dyegoaurelio@gmail.com | 🐙 dyegoaurelio | 🔗 dyegoaurelio

Skills

Front-end	React - Next.js - Redux - React - Vite - Jest - HTML5 - CSS
Component Libraries	Mui - Mantine - Styled Components - Bootstrap
DevOps	AWS - Docker - Azure - GitHub Actions - Heroku - Vercel
Back-end	Flask - Django - FastApi - Express.js - PostgreSQL

About

I'm passionate about programming, web development and Linux. I've worked with many full stack technologies, mostly using Typescript and Python. I'm a great problem solver and can work with Agile environments.

I also like open source projects and contribute whenever I'm able to help projects I use.

Experience

Finacy   *Remote*
SOFTWARE ENGINEER   *Jun. 2023 - Present*
- Lead the development of the Finacy game and overall application (MERN stack with Godot for the game engine)
- Manage all DevOps for the application infrastructure, test environments, including CI/CD
- Participate in team planning meetings, product roadmap discussions, provide technical advisory based on proposed features and more
- Finacy is the financial literacy app for kids. In an ever more complicated financial world, teaching kids the money principles that will ensure they're set up for a financial sound future is more important than ever!

PublicSquare   *Remote*
SOFTWARE ENGINEER   *Jun. 2023 - Present*
- PublicSquare is a budding venture studio. We're always hiring for talented technologists looking to work on mission-driven ventures.
- Our first venture is Finacy, with a mission of bringing engaging financial education and financial products to families across the US, to help young people grow into financially healthy adults.

Mobills   *Ceará, Brazil*
FRONTEND DEVELOPER   *Mar. 2021 - Dec. 2021*
- Worked on many new features, refactors and bug fixes on Mobills web platform, using React, Redux and Redux Saga
- Personalized Zendesk templates using Vanilla JS and CSS for Mobills Help Center

Pax Insurance Broker   *Ceará, Brazil*
SOFTWARE ENGINEER   *Mar. 2021 - May 2023*
- Developed a system to manage costumer's Health Insurance changes
- Developed various systems in order to automate many company's internal processes using Python and Pandas
- Created Power Bi panels for business presentations
- Developed a database to store all costumer's data
